DIARY NOTES

DD/S [REDACTED]

13 July 1960

25X1A9a

1. Dick Bissell [REDACTED] and while he 25X1A submitted his preliminary budget estimate for Fiscal Year 1962, he hoped that no "major" changes would be made while he was away.

2. General Cabell buzzed to register a complaint because despite the fact that he had personally requested a change in a Regulation which we sent over for his signature we had not seen fit to make the change. He insisted that notwithstanding the fact that our Regulation might be entirely proper from a legal standpoint, it was not good English and did not close one loophole which he wanted closed. I assured him that if he would send it back I would make the necessary changes.

4. I had lunch with [REDACTED] and talked to him about his new assignment. It is evident that he expects to get into the Support business much more than has been the case in the past and that he will also expect a great deal more support from us. He is interested in having [REDACTED] join his staff and also wishes to have [REDACTED] transferred elsewhere. I told him that [REDACTED] was committed to the Office of Training but that if he were requested by the Director's office I would try to work out some arrangement whereby he could be made available.
